

Timber Education Seminar

Topic:

How timber is taught and explored in different contexts 木材教育とその多様な実践

OBJECTIVE:

This seminar brings together researchers, educators, students, and professionals to discuss timber education and structural design. Australian experts will share their insights and work related to the timber industry.

このセミナーは、木材教育や構造設計に関する最新の取り組みを紹介し、国際的な知見を共有することを目的としています。研究者、教育者、学生、実務者が一堂に会し、オーストラリアの専門家による先進的な事例や教育実践が紹介されます.

Tuesday. 30th Sept, 2025

15:00-15:05 Opening session

15:05-15:30

Building timber bridges between architecture and engineering

speaker 1

Lisa Ottenhaus

(Australia, University of Queensland)

15:30-15:50

Learning through Making: Prototyping with timber

speaker 2

Kim Baber

(Australia, Bond University Baber Studio Architects)

15:50-16:10

From Seedlings to Structures: Timber Workforce Development

speaker 3

Clarissa Brandt

(Australia, Timber Queensland)

16:10-16:30

Experiential Learning:
Sustainable/ timber construction at University of Tasmania

speaker 4

Louise Wallis

(Australia, University of Tasmania)

16:30–16:45 Open Discussion 16:45 Closing
